1. Berilgan kunni yillarga, haftalarga, kunlarga ajratib beruvchi dastur yozing:

```
Enter days:
367
Years : 1
weeks : 0
Days : 2
```

2. Berilgan string boshqa bir stringda mavjudligini tekshiring.

```
Enter the string : techstudy - the complete debugging solution
Input the substring to  search : techstudy
The substring exists in the string.
```

3. Gapning pangram ekanligini aniqlang. Pangramma (yunoncha: pan gramma, "har bir harf") - alifbodagi har bir harfdan kamida bir marta foydalaniladigan jumla.
Eng mashhur ingliz pangrammasi:
The quick brown fox jumps over the lazy dog.

Amaldagi alifbo `a` ga `z`, inklyuziv va katta-kichik harflardan iborat bo'ladi.
